

Business Enterprise Centre Tea Tree Gully

Small Business Member Story

One of our BEC members David Baker owns a business called Taste Art. David is a local artist and specialises in print, paint and photography. He enjoys experimenting with a variety of media and techniques and aims to engage awareness, emotion and feelings in the viewer so they become engaged with the energy of his works.

David has several projects he has been working on, they are:

- The Adrenaline collection; painting for blokes such as F1 car racing, Holden cars, military planes and ships and sports. These images show tension, anxiety, power and the mechanical objects are given an organic quality. These prints are available in canvases in assorted sizes.
- Calm; a relaxing portfolio of work.
- Hybrid Project; utilises macro photography of 'juicy' acrylic morsels and presents amplified images onto a large canvas or metal photographic paper, resulting in cosmic and sub molecular images. These are available in canvas panels from small to large.

Most of David's photography has been taken during his travels in Europe and his photographic goals are to:

- Capture the moment; capture the light, interesting angles and intimacy.
- Expose the essence and energy; always leaving something intriguing for the viewers to work out.

David hopes you enjoy his work.
